

# ORLANDO SANTOS

## BIM MANAGER

HALF MOON BAY, CA • SANTOS.ORLANDO17@GMAIL.COM • (650) 302-9373

[LinkedIn](#) • [My Website](#) • [GitHub](#)

### SKILLS

**BIM & ARCHITECTURE:** Revit Autodesk, Advanced Revit Families, Autodesk Construction Cloud (ACC), BIM 360, NavisWorks, VDC Tools & Coordination, AutoCAD, Revit API, PyRevit, PyRevit scripts, Ideate Explorer, Clarity, Dynamo, DiRoots, Adobe Photoshop, Adobe InDesign, Blue-beam, Microsoft Suite

**DEVELOPMENT:** Typescript, Javascript, Python, HTML, CSS, C#, .Net, React Native, React, Expo Go, Tailwind, Bootstrap

### CERTIFICATIONS

[Autodesk Certified Professional: Revit for Architectural Design](#)

June 2025

[BIM-VDC for Construction](#)

July 2025

[The Complete Autodesk Navisworks](#)

July 2025

### BIM PROJECTS

#### Alameda Marina The Foundry - BIM Manager

- Five-story, 259-unit residential building with structured parking and waterfront amenities
- Oversaw BIM setup including site coordinates, modeling standards and BEP compliance
- Managed BIM 360 environment for uploads, folder hierarchy, and consultant access
- Facilitated weekly coordination meetings across architecture, structure, MEP, and landscape
- Implemented model QA/QC workflows to track design changes and improve consistency
- Balanced short-term coordination for Phase 3 with long-term planning for 801-unit master plan

#### 598 Bryant - BIM Manager

- 31-story, 380-unit residential tower with retail, structured parking, and ground-level streetscape
- Directed BIM setup for high-rise construction including site coordinates and modeling standards
- Coordinated demolition-to-construction transition with consultants and trade partners
- Managed BIM 360 workflows for design team collaboration and document control
- Led model QA/QC reviews to ensure compliance with BEP and state density bonus requirements
- Facilitated consultant coordination to resolve clashes in complex curtain wall, structural, and MEP

#### Southline - BIM Manager

- Directed project setup including site coordinates, modeling standards, and family management
- Multi-phase life science campus with six 6–7 story buildings, garages, and amenities
- Managed BIM 360 workflows including uploads, folder structure, and team permissions
- Conducted weekly BIM coordination meetings with consultants and trade partners
- Balanced Phase 1 coordination with long-term planning for future phases
- Provided model QA/QC checks to ensure compliance with BEP (BIM Execution Plan)

## Harbor View - BIM Manager

- Three 6–7 story buildings with garage and amenities
- Set site coordinates and BIM 360 structure; assigned teams per building
- Assisted design team in developing clash-free architectural packages for early coordination
- Developed and governed content libraries to standardize detailing across multiple project phases

## MOFFET TOWERS II - BIM Lead / Job Captain

- Five 8-story buildings, three garages, and a hotel
- Coordinated garage and hotel models; managed model cleanup with Revit plug-ins
- Facilitated 3D coordination between architecture, structure, MEP, and landscape disciplines

## EDUCATION

### ACTUALIZE CODING BOOTCAMP | CERTIFICATE IN FULL STACK WEB DEVELOPMENT

Jul 2023 - Oct 2023

A four-month full-stack web development bootcamp. JavaScript, Python, React, Git, Agile, REST APIs

### UNIVERSITY OF SAN FRANCISCO | BACHELOR OF ARTS IN ARCHITECTURE AND COMMUNITY DESIGN

2014

## EXPERIENCE

### BDE ARCHITECTS

April 2024 - Current

#### BIM SPECIALIST

- Developed custom Revit plugins using IronPython and pyRevit to streamline modeling workflows
- Standardized project structures, aligning folder hierarchy and naming conventions with ISO 19650 principles.
- Partnered with IT to manage software licensing and deployment
- Collaborated directly with architecture staff to gather feedback and identify automation needs
- Led efforts to expand and organize the Revit Family Library, prioritizing usability and visual consistency
- Supported interior design workflows, with a focus on multi-family residential projects
- Provided cross-team support, training and onboarding, helping teams adopt tools more effectively
- Maintained ACC models and coordinated project data across departments

### DES ARCHITECTS + ENGINEERS

Jan 2017 - Jun 2023

#### JOB CAPTAIN | BIM COORDINATOR

Jan 2020

- Created and maintained Revit templates and prototype sets for Architecture, Structural and Interiors
- Developed and implemented a centralized Revit family library used across multiple disciplines
- Led QC for Revit families, templates, and plug-ins across Architecture, Interiors, and Structural teams
- Collaborated with project managers to align BIM deliverables with client and contractual requirements.
- Designed and delivered BIM training programs for 150+ staff, creating SOPs and documentation standards
- Converted as-builts into Revit from blueprints, AutoCAD, and SketchUp sources
- Managed BIM 360 workflows, consultant coordination, and model QA/QC for large mixed-use campuses (retail, office, and hotel)
- Performed MEP clash detection using Navisworks, flagging and resolving coordination issues
- Managed and Implemented BIM 360 worksharing and supported technical troubleshooting across offices

- Design multi-page layouts for city/clients showing Architectural design intent
- Collaborate with clients to establish a design direction
- Produced planning packages including zoning studies, and schematic design presentations.
- Researched materials, finishes, and sustainable design options, coordinating with vendors and consultants.
- Created presentation drawings and diagrams for planning approvals and stakeholder engagement
- Directly oversaw the renderings produced by the graphics team
- Sketch, brainstorm and critique with design team

**CSDA DESIGN GROUP**

Jun 2014 - Dec 2016

**DESIGNER**

- Research and implement add-ins for Revit users
- Generate 3-D building from illustrations and concepts
- Produced visualizations and renderings linked directly to BIM models
- Led in early adoption of BIM 360 cloud workflows, providing guidance to staff transitioning from 2D CAD

**DEVELOPMENT PROJECTS****Revit Plug In**

- Developed internal tools to streamline workflows, and improve coordination across multi-discipline teams
- Created automated quality control checks to confirm global application of design changes.
- Developed a custom plugin using IronPython, .NET, Revit API, and the pyRevit framework
- Consolidated useful scripts from various pyRevit extensions into a unified, office-specific toolset
- Integrated open calculation scripts to automate common workflows such as allowable openings, area takeoffs, and code checks, reducing manual effort and increasing accuracy
- Employed Git for version control and collaborative plugin development
- Assisted IT updates across teams through the pyRevit extension deployment model

**A-FRAME: SURF FORECAST**

- Created full visual identity, including logo, typography, color palette, and layout
- Prioritized user clarity by simplifying complex surf data into digestible visuals
- Built interactive tide and swell charts using Skia and D3.js optimized for mobile UX
- Developed the app using React Native, TypeScript, and a Python backend
- Integrated Apple Maps, API data, and custom components like bottom sheets
- Managed data with PostgreSQL and Postico, deployed with Heroku
- Developed a dynamic rating system that adjusts based on wind and swell direction/strength
- Used Git for version control and collaborative development workflows
